## LOCAL AND COUNTY.

**WALL PAPER.**  
 An excellent assortment at Betts &  
 Co's, over Crump & Wing's store.

Mr. Ballinger informs us that he will  
 open his new drug store in about ten  
 days. Some of his goods have arrived,  
 and he now awaits the progress of the  
 painters, who will soon be through.

Ornamental, sign, banner and house  
 painting, done by Betts & Co. Also,  
 paper hanging in the very neatest and  
 most artistic manner.

**BURNED TO DEATH.**—The wife of Mr.  
 Asbury Worthington, near Louisville, in  
 this county, on Sunday, 17th inst., at  
 tempted to fill a lamp with coal oil while  
 the wick was lighted. The oil ignited  
 and the lamp exploded, burning Mrs.  
 Worthington so badly that she died the  
 next day. This is another terrible  
 warning to those who are careless in  
 handling this combustible fluid.

A striking evidence of the high esteem  
 in which the Charter Oak Stores are held,  
 is the immense number of them that are  
 actually sold—18,492 in 1869. This is  
 capable of proof, and attests the merits of  
 these stores more than pages of writing.

Call at Betts & Co's and examine the  
 fine assortment of wall papers; gilt  
 and velvet borders, etc.

**PERSONAL.**—Our genial friend Albert  
 Houston, of St. Louis, stepped into our  
 sanctum last Monday evening, looking as  
 "happy as a big sunflower." We shall  
 ever cherish a fond feeling toward Al,  
 for it was he who held our hand as we  
 made the successful step from that rick-  
 ety old craft, "bachelor's room," and we  
 now stand on the other shore with open  
 arms to welcome our young friend to its  
 shady borders and peaceful abodes.

## WAGONS! WAGONS!

We have on hand several of the cele-  
 brated "Smilie and Spencer" wagons,  
 manufactured at Virden, Illinois, which  
 we warrant first class in every particular,  
 and will sell them at prices that cannot  
 fail to please. Call and see.

**ROGERS & CAKE.**

**PIANO FOR SALE.**—An excellent rose-  
 wood piano can be bought at a reasonable  
 price from Dr. J. L. DOGGETT,  
 228—3w Troy, Mo.

**SOME DISTANCE.**—The number of  
 Charter Oak Stoves made and sold last  
 year by the Excelsior Manufacturing  
 Company, if placed in a line close to-  
 gether, would stretch out for a distance  
 of twelve miles.

**INTERESTING TO REAL ESTATE HOLDERS  
 AND BUYERS.**—Attention is directed  
 to the card of Attorneys Quigley & Bon-  
 fils, who have formed a co-partnership in  
 the practice of law and real estate agency.  
 The quiet energy of these two legal gen-  
 tlemen recommends them in their profes-  
 sion, and promises strict attention to all  
 business entrusted to them. Mr. Bon-  
 fils has been employed for more than two  
 years compiling a book of abstract titles  
 of all the lands in the county, extending  
 back to the first titles, and can furnish any  
 information in regard thereto that may be  
 desired by those who wish to buy lands  
 in this county. This book is invaluable,  
 and if you wish to know the security of  
 your land titles without expending hours  
 or days searching musty old records, you  
 cannot do better than to call on Mess.  
 Quigley & Bonfils and have the matter  
 settled satisfactorily in a few minutes.

A communication in regard to a rail-  
 road meeting at Louisville was received  
 too late to insure publication in this is-  
 sue. It will appear next week.

Mess. H. McRoberts & Son will com-  
 mence running a daily hack line from this  
 place to Wright City on the 18th of  
 August, in connection with their Wentz-  
 ville line. See advertisement in another  
 column.

**Domestic, &c.**  
**SPONGE CAKE.**—Four eggs, one cup of  
 flour, one cup of sugar, teaspoonful of  
 lemon extract, two teaspoonfuls of baking  
 powder; mix the flour in gradually, and  
 bake quickly.

**WASHING LIQUID.**—Take one part  
 dissolved sal soda; two parts spirits tur-  
 pentine; mix in a bottle, and use a ta-  
 ble spoonful to a tub of water. It will  
 make the soap go twice as far.

**TO OBTAIN A GOOD NIGHT'S SLEEP.**—  
 Sponge the entire length of the spine in  
 hot water for ten or fifteen minutes; this  
 will reduce the circulation, quiet the ner-  
 vous system, and induce sleep better than  
 any drug.

**BRIDGEPORT CAKE.**—One cup of but-  
 ter, two of sugar, three and one-half cups  
 of flour, four eggs, one cup of sour milk,  
 the juice and rind of a lemon, one small  
 teaspoonful of soda, two cups of cur-  
 rants.

**TO REMOVE TAN.**—Tan may be re-  
 moved from the face by mixing magnesia  
 in soft water to the consistency of paste,  
 which should then be spread on the face  
 and allowed to remain a minute or two.  
 Then wash off with castile soap suds and  
 with soft water.

**TO MAKE OLD KID GLOVES NEW.**—  
 Make a thick mucilage by boiling a  
 handful of flax seed; add a little dis-  
 solved soap; then when the mixture  
 cools, with a piece of white flannel wipe  
 the gloves, previously fitted to the hand;  
 use only enough of the cleaner to take off  
 the dirt, without wetting through the  
 glove.

**HOW TO WASH FLANNELS WITHOUT  
 SHRINKING.**—No woolen fabric should  
 have soap rubbed on it unless you wish  
 to shrink it. Soak it in warm water  
 half an hour; rub lightly when you  
 rinse it out; then rub thoroughly in good  
 hot suds; rinse it out, put in a tub and  
 pour clean hot boiling water on it—the  
 more the better; let it stand till cool  
 enough to be rinsed out by hand.

**BLACKBERRY WINE.**—Gather nice  
 ripe blackberries; wash them well in a  
 wooden or earthen vessel, strain, and for  
 every gallon of juice thus obtained, add  
 two quarts of water to the pomace. Let  
 this stand several hours stirring occasion-  
 ally, then strain and mix with the pure  
 juice. To every gallon of this mixture add  
 three pounds white sugar. Place in any  
 suitable vessel to ferment, substituting a  
 piece of gauze neatly pasted on for a stop-  
 per. After fermentation, loosely place  
 the stopper in. Rack off and bottle in  
 October.

Another way:  
 First, secure good berries, good kegs  
 or casks, and good Havana sugar. The  
 berries should not be green nor frosted,  
 but perfectly ripe. The kegs should be  
 perfectly clean. A good way is to wash  
 with boiling water and common soda.  
 Extract the juice by pressing in a cider  
 press, or even a cheese press; but do not  
 run the berries through the apple crusher,  
 as that breaks many seeds and gives a  
 bad flavor to the wine. After expressing  
 the juice, strain through a cloth strainer;  
 add to every quart of juice three pounds  
 of sugar, and water sufficient to make  
 one gallon, total. Add no less than  
 three pounds of sugar, otherwise the  
 wine will grow acid. Place your mixture  
 in a kettle, and bring to a boil; skim  
 as soon as it boils, then allow it to cool,  
 and fill your kegs about two thirds full,  
 and keep in a moderately cool place—a shed  
 or open room. Place a loose cloth over  
 the bung, and allow it to ferment. After  
 fermenting four or five days fill the  
 kegs with fresh made liquor, and allow it  
 to ferment as long as it will, then bung  
 tight, and the last of November remove  
 to the cellar. Rack off in March; have  
 your spigot two inches above the chime,  
 so as not to disturb the sediment. Rinse  
 out your kegs in boiling water, and re-  
 turn the wine. Then let it stand until  
 about June, and bottle in dark bottles.  
 I have used five, ten and forty gallon  
 casks, and think five gallon casks far  
 preferable. Filling the casks only part  
 full, and allowing to ferment, then filling  
 up and allowing a second fermentation,  
 makes wine livelier, and it is ready for  
 use much sooner. Wine, by this pro-  
 cess, has at the age of one year, the ap-  
 pearance in all respects of four year old  
 wine.

**SALTING MILK COWS.**—Wm. Egger,  
 of Lowell, Lewis county, New York, a  
 Swiss dairyman of experience, gives the  
 method practised in Switzerland by the  
 best stock keepers. He says that cows  
 should be salted early every morning,  
 and if they are fed in the stable, the  
 salt should be given before foddering.  
 Salting in this way improves their ap-  
 petite; they drink with more regularity,  
 are kept in better health, and give more  
 milk than when salted in the usual way,  
 as practised by dairymen in America.  
 He thinks it very injurious to salt milk  
 cows only once or twice a week, as they  
 will lick too much salt at one time, and  
 drink too much water for the day. To  
 have stock to do well, they must be fed  
 with regularity every day alike, and  
 never give too much of anything at one  
 time.

**PROTECTING SHEEP FROM DOGS.**—A  
 correspondent says that his father, a  
 prominent sheep raiser, finding that the  
 "bell wether" was never attacked by dogs  
 conceived the idea that the use of bells  
 would tend to frighten away the murder-  
 ous canines. Accordingly he furnished  
 fifteen or twenty sheep of a hundred  
 with globular bells, the size of an ordi-  
 nary tea-spoon. Having seen it practiced for  
 several years successfully, he is certain of  
 its value.

The Worcester (Mass.) Spy has com-  
 menced its hundredth year, and its pro-  
 prietors are going to celebrate it by a  
 grand dinner. This is probably the oldest  
 newspaper on the continent, next to the  
 Quebec Gazette, which has reached its  
 one hundred and sixth year.

It is almost certain that Austria, En-  
 gland and Russia will not become involved  
 in the war between Prussia and France.

**DIED.**  
 On the 22d of July, 1870, of heart disease,  
 Mrs. SARAH W. POWELL, wife of W. T. Powell,  
 aged 33 years and 5 days.

## McCORMICK'S Improved Machines

**THE ADVANCE.**  
 The Advance is a two-wheeled combined Self-  
 raking Reaper and Mower, with two cutter bars,  
 reaping five feet wide, with serrated Sickle, and  
 delivering the grain at the side of the machine  
 in good sized shocks, without any attention from  
 the driver.

It has a quicker motion for Mowing, with  
 sharp-edged knives, cutting four feet wide. The  
 reaping parts can be detached on mow, and the  
 Mower bar can be simply changed to a reaper  
 in a pair of small horses, managed by a boy,  
 can operate it with the greatest ease.

**THE PRIZE MOWER.**  
 The Prize Mower is made as a separate ma-  
 chine for those who raise only grass, and is pre-  
 ferred, and are able to buy two machines.

It cuts four feet wide, and cuts clean, close and  
 rapidly through the worst matted clover and dead  
 grass, wet or dry, without the least tendency to  
 choke or clog.

**THE RELIABLE.**  
 We still continue to furnish the old Reliable, of  
 large size only, cutting six feet wide. It is  
 adapted for farmers who wish to have a separate  
 reaper that will do a big days work, and that  
 can be relied on in every emergency.

Sample Machine can be seen at the  
 East Troy Mills, or at the  
 Undersigned Agents'.

**BLANK NOTES FOR SALE.**

We take pleasure in calling the attention of  
 the farmers to this celebrated Machine for  
 the following reasons, to-wit:  
 It can be bought for \$80 less than almost any  
 other machine, of eight horse power, the price  
 being \$350. It will thresh as much grain in a  
 day, and clean it better, than any other machine  
 now in use.

It can be hauled over any road that an ordinary  
 load of wood can go without any fear of upset-  
 ting, and two men can handle it and set it ready  
 for work.
